This Webinar Forum measure the government's direction in the continuation of infrastructure projects from 2020 to 2021, in a situation of the Covid-19 pandemic crisis. Project plans and activities are also discussed in terms of problems that arise along with the readiness of human resources, tools and financing. This webinar organized by collaboration of *Indonesia Construction & Architecture Network* ([www.arsitektur.asia](http://www.arsitektur.asia)) and *Construction Indonesia* ([www.constructionindo.com](http://www.constructionindo.com))
